IN THE SPECIFICATION

Please amend the specification as shown on the attached substitute specification. Due to the number of amendments to the specification, Applicant is submitting a substitute specification in accordance with 37 C.F.R. §1.125, including a marked-up specification and a clean specification.

The amendments to the specification correct typographical errors, clarify some of the wording used in the description, and replace the word "vehicletalk" with the phrase "mobile unit." These changes do not add any new matter to the application.

As shown in the amended specification, the title has been amended to read "SYSTEM AND METHOD FOR COMMUNICATING BETWEEN MOBILE UNITS".
